

How well do you know the first-year college student?

Choose true or false for each question....

- 
- True False 1. When considering an occupational choice, economic factors (how much they will make) are more important to students than any others.
- True False 2. The average first year student's weight gain is 8 to 10 pounds.
- True False 3. The most common substance used in reported date rape situations is Rohypnol ("roofies") and GHB.
- True False 4. Over 80% of first year students who enter college have already started drinking alcohol on a regular basis.
- True False 5. Students involved in campus activities are 75% more likely to graduate in 4 - 5 years than those who choose not to get involved.
- True False 6. The 5 most unhealthy foods students consume on a regular basis are: cheese, soda pop, fried foods, beer and meat.
- True False 7. Less than 50% of young people have admitted to cheating on an exam in order to get a better grade.
- True False 8. The "typical" college student annually consumes over 30 alcoholic beverages in a year.
- True False 9. By the age of 18, students have spent more time studying or in school than they have watching television.
- True False 10. After the first semester of college, parents and guardians have little influence on their student's future decisions.

Answers: 1-T, 2-F (13-15), 3-F, 4-T, 5-T, 6-T, 7-F (80%), 8-T (around 55 six-packs), 9-F (23,000 to 13,000),
